

Our project aims at creating opportunities for our students to get into a more intensive contact with the job market and its perspectives, demands and possibilities.

- *What are our student's goals and preferences for their professional and vocational future?*
  - *Which jobs and positions would they like to get?*
  - *What problems and obstacles do they see on their way towards these jobs?*
- 

*TWSE-Train,  
Work and  
Succeed in  
Europe*

*Erasmus+ project*

# THE PROGRAM

The actual project work will be divided into different steps:

## **Research and information (Project Year 1):**

Student teams of each partner school - coached by teachers - will research and create tools like

- a questionnaire for students, employers and educational institutions like universities
- interviews with employers, university professors / scientists, career guides, etc.
- a data base with useful internet sites, contacts, etc.

## **Analysis / Comparison (Project Year 2):**

- Realization and evaluation of the questionnaire
- Comparison of the results at the five different partner schools
- Implementation of the results by organizing workshops, creating a career guideline (by the students), etc.

# PARTICIPATING ORGANISATIONS

## **Staeliche Berufliche Oberschule Schwandorf (Germany)**
